

Flying On Water

I was waiting for Friday
Our time was set
I looked at my watch
Was it time yet
We got into the car
Coffee in my hand
All our times were booked
All of it preplanned
We drove to Cowes Marina
And parked up ok
The sun was out shining
We're set for an amazing day
At the desk we signed in
We were offered cake
Next we put on lifebelts
I really couldn't wait
We head off to the boat
All of us were ready
Moving in a line
My knees were really steady
We all took our seats
The boat pulled away
Camera in my hand
It was the day today
There's a sea breeze on my face
With the warmth of the sun
We had set sail
There was more to come
There's really nothing nicer
Than being out at sea
It's better than the sand
It's where I long to be
We all took it in turns
To drive the boat on water
The seat was very high
My legs a wee bit shorter
There I was now
The wheel in my hand
They said to turn left
My head had other plans
Time to turn the boat round
We hit a few bumps
We bounced on the sea
It felt like there were lumps

I felt I was grinning
From ear to ear
How amazing is this
I let go of all my fear
We went faster and faster
It was so much fun
With the spray of the water
And the warmth of the sun
Cowes Sailability club
Had organised the boat
We all returned safely
And yes that has my vote
